

Memorandum

Date : December 4, 1995

To : Rick Woodard
Division of Local Assistance

From : Steve Yaeger, Program Deputy Director
CALFED Bay-Delta Program

Subject: Performance Measures for Water Quality

You will be getting the attached as part of a larger package in a formal transmittal for review prior to the December 12 Program Coordination Team meeting. However, I wanted to send the consultant's proposal for water quality performance measures (PM) in advance for your early review. These PMs will be used to judge the relative performance of alternatives. Walt Wadlow has a copy (I asked him informal comments) and he may be calling you to discuss them.

I'd like the PMs to be as consistent as possible with past TAC work, as well as being comprehensive. Your comments would be welcome. Thanks for your support.
